6 November 2002

Jenkins have used Computrad Ltd as their preferred IT software, hardware and network supplier since the end of 1998 and have developed a strong relationship with them during this period as Computrad have continued to provide a reliable and reputable service. Even during emergencies when their service was most needed they were always easily accessible to resolve difficult problems, being frank and honest on controversial issues and successfully resolving these issues.

I have found Computrad as a firm to be totally professional and efficient in the services they provide. Both Les Jardine and Zaki Farooq are always helpful and have provided Jenkins with a high level of service.

Yours faithfully,
